COMMUNITY RESOURCE CONNECTIONS

Connecting community members to the resources they need!

Think back to high school. It's your senior year and you are almost done! What happens next? Who do you ask about it? How do you gather the information you need?

You know you are on track to graduate because you've talked to your school counselor, and she said you have all the credits you need. You know you've positioned yourself well for college acceptance because you asked your English teacher to review your application essay and to serve as a reference.

You feel confident that you can afford to continue your education because your college admissions counselor assisted you with your financial aid package. You feel ready to take on your goals.

At CRC, we hope you can feel the same kind of confidence and support as you pursue your goals. We research area programs so when you call wondering what is available for your needs, we can be prepared. We walk through hundreds of supportive programming application so we can be confident we can assist you with yours. We listen, advocate, and assist so you can be confident you are heading in a positive direction.

MNSURE UPDATES

PHASE 1

As of May 6, households at or below 400% of the federal poverty level (FPL) who applied through MNSure requesting financial assistance have had their eligibility updated to reflect the increased advanced premium tax credit (APTC) amount.

PHASE 2

As of June 10, households over 400% FPL who applied through MNSure requesting financial assistance have had their eligibility updated to reflect new eligibility for APTC.

Key takeaways:

1. For households with income over 400% FPL, MNSure has applied any new APTC to enrolled consumer accounts effective for July coverage for all eligible households. Some consumers may not see the new APTC applied until their August invoice.
2. Consumers newly eligible for APTC will receive a notice in the mail explaining that their eligibility has been updated. This is a manual notice so it will not be viewable in the consumer's online account.
3. Consumers who do not want APTC applied to their premium must log in to their account to make changes.

PHASE 3

MNSure anticipates rolling out a third phase of ARP implementation this summer which would provide an additional tax credit and cost-sharing benefit for eligible consumers who receive at least one week of unemployment insurance benefits in 2021. Keep watch for more information.
